Dear Mark,

Please find the audit: Audit - MW

They are large files, so they came to me split into four separate spreadsheet.

We consider this stage of the work complete.

-g

Mr. [redacted],

Thank you — I appreciate you releasing the contract this quickly, and the staged approach works perfectly. I'll watch for the audit whenever it's ready; no rush now that production is moving.

Your and Ms. [redacted]'s responsiveness has been exactly how this process is supposed to work. I'm grateful for it.

Respectfully,

~Mark

Dear Mark,

Good morning,

Thank you for your patience as we are collecting and reviewing the records you requested.

I am still waiting on the audit, but I can release this contract now. Flock Group Contract.pdf.

Please continue to be patient with us as we keep working on your request.

Dear Ms. [redacted]

I am following up a second time on the public-records request I submitted to UNC Pembroke on **June 28, 2026**, for routing under POL 02.65.03, concerning the University's automated license plate reader program and its contract with Flock Safety or another ALPR vendor. I sent a first follow-up on **July 13**. I have not received a production or an estimated completion date.

I want to be constructive rather than adversarial, so let me offer the context I have. Two institutions in the UNC System received a materially identical request on the same day and have already produced in full: **UNC School of the Arts produced on July 1 — three days — and North Carolina A&T State University produced on July 9, eleven days.**A&T's Network Audit alone contained 1,390,776 rows. The core records here are documents already in hand and a report generated on demand from the Flock Insights tab; this is not a research project.

N.C. Gen. Stat. § 132-6(a) requires production "as promptly as possible." Twenty-four days, with one follow-up unanswered, is difficult to reconcile with that standard when peer institutions have completed the same request in days.

To speed things along, I am glad to take production in stages. The two items of greatest public interest are:

1. The **ALPR vendor contract** — Flock Safety or any other vendor — including any amendments, renewals, or attached terms of service; and
2. The **Flock Network Audit** — Insights tab, most recent three months, exported in native CSV.

If the University produces those two now and the remaining items on a rolling basis, that fully satisfies me for the present. What I am trying to establish is straightforward: what the University agreed to, and which agencies are searching cameras on a public campus and for what stated reason.

Please let me know by **Friday, August 1, 2026** either (a) when production will be complete, or (b) which specific items the University contends are exempt, and the statutory basis for each. If any portion is being withheld, I would appreciate that in writing so the record is clear.

I am glad to speak by phone if that is quicker than correspondence.

Respectfully,

Mark Spencer Williams
